A COUPLE THAT LOVES A CHALLENGE!

Amy was born into a Farming Family and grew up on the Family Beef and Rice Farm in the Riverina of Country New South Wales. Growing up on a Family Farm was where Amy gained the Foundation and Life Skills she has today to provide the Practical, Inspirational and Inventive Solutions. Amy commenced her Safety Career 11 years ago in the Construction Industry, she progressed her Career in the Heavy Lift and Transport Industry in Mining and Oil and Gas.

Joe was born into a successful family business owned and run by his Mother and Father in the Suburb of Bentley in Perth. Joe learned from his parents that one of the rules to any business reputation standing the test of time is honesty and trust.

Growing up in the family business Joe was quick to branch out on his own and start his first successful Mobile Crane Company. Joe has gained 30 years experience in the mobile crane and telehandler Industry in Perth. He has been providing solutions to many complex materials handling jobs, whilst building a loyal customer base with his extensive knowledge in the Industry.

WE BELIEVE IN HONESTY, LOYALTY & INTEGRITY IN BUSINESS & IN LIFE IS THE ONLY WAY TO LIVE....

Joe and Amy's main point of difference is that they adapt to change quickly and embrace new ideas.

INNOVATIVE EQUIPMENT HIRE, SALES & SERVICING SOLUTIONS AUSTRALIA-WIDE

AT ZONE GROUP, YOUR CHALLENGE IS ACCEPTED. EQUIPPED WITH A SPECIALISED FLEET OF MACHINERY, EXTENSIVE KNOWLEDGE & THE RIGHT SAFETY SPECIALISTS. WE ARE COMMITTED TO PROVIDING YOU WITH INNOVATIVE EQUIPMENT HIRE & SALES SOLUTIONS TO MEET YOUR REQUIREMENTS.

OUR BUSINESS FOCUSES ON WORKING CLOSELY WITH OUR CUSTOMERS TO UNDERSTAND MATERIALS HANDLING REQUIREMENTS AND PROVIDE HIGH QUALITY, COMPREHENSIVE, RELIABLE AND COST-EFFECTIVE SOLUTIONS TO MEET OUR CUSTOMERS' NEEDS.

WE ARE CONSTANTLY EVALUATING OUR APPROACH TO ENSURE WE ARE USING INDUSTRY LEADING PRODUCTS. ZONE GROUP ARE COMMITTED TO EXCELLENCE IN EVERYTHING WE DO, WHICH IS WHY OUR CUSTOMERS CONTINUALLY COME TO US WITH THEIR MATERIALS HANDLING REQUIREMENTS.

EXPERIENCE & INNOVATION

We always like to be ahead of the game. Always willing to accept new ideas, embrace change and stay relevant.

WE ENJOY WHAT WE DO

After 30 years in the business we are very passionate about the specialised lifting and safety industry.

WE LISTEN TO YOU

At Zone we believe in actually listening to our customers to find out exactly how we can help.

YOUR CHALLENGE IS ACCEPTED

Our team are not afraid of your difficult or challenging tasks and projects.

OKTOPUS

SMARTLIFT®

2 TONNE TRUCK

Our compact truck is a favourite for delivering Oktopus lifters, Smartlift attachments and Manitou accessories to our clients.

7 TONNE HINO TRUCK

Our original hino crane truck helps us to complete small to moderate deliveries and wet hire jobs. The attached crane is perfect most standard lifts making this a handy asset.

13 TONNE TILT CRANE TRUCK

With an inbuilt tilt slide and 24m reach of the Effer crane, this has become our go to for crane wet hire jobs and multiple dry hire deliveries at once.

ZONE GROUP VAN

One of our latest additions to our transport fleet. This van helps us with easy transport for Smartlift, Oktopus and any lifting attachments and accessories.

ENCLOSED TRAILER

Available for hire, our fully enclosed, two door trailers are specifically built for easy loading and unloading of your Smart Lift. Tie down hooks prevent any damage and a handy charging port for extra convenience and ease.

WE OFFER AN EXTENSIVE RANGE OF TRANSPORT OPTIONS AVAILABLE FOR EVERY HIRE!

We promise to get your next hire delivered to you on time with our trusty, new trucks, vans and trailers.

SMARTLIFT INDOOR & OUTDOOR GLAZING ROBOTS

ADAPTABLE & POWERFUL!

The outdoor robots are designed for driving on different terrains using a powerful front wheel drive system. Inclination is not a problem and these robots are resistant to weather and temperature conditions.

The outdoor series features the most powerful and advanced vacuum lifters in our offering, ready to take on a wide range of tasks from lifting heavy window sections to exterior facade elements at great height.

Smartlift also provides a large selection of accessories. Handle anything from curved glass to pallets and heavy doors using original Smartlift accessories. Consult our experts for advice on your next project.

Superseded
409 HLE

SL409 HLE

LIFTS UP TO 430KG

As the demand for triple-pane windows and other energy-saving building elements continues to rise, heavier lifting becomes more prevalent. The SL 409 Outdoor is designed with a compact and ruggedized structure, ensuring that you can complete your tasks safely and efficiently.

Superseded
609 HLE

SL609 HLE

LIFTS UP TO 600KG

Your ultimate companion for mounting glass, marble, granite, and steel. Includes a rotating yoke to ensure a quicker operation and additional features to enhance your experience. Fully electric and equipped with a maintenance-free battery pack.

SL809 HIGH REACH

LIFTS UP TO 800KG

The highest-reaching vacuum lifter in our lineup, capable of lifting up to first-floor and beyond. Whether it's glass, stone, or metal, the SL 809 ensures safe and efficient handling with its advanced hydraulic system and remote-controlled, rotating yoke.

www.zoneg.com.au / 1300 099 338
SALES | HIRE | WET HIRE | SERVICING

VACUUM PAD EXTENDOR

Available in 2 lengths, 1-5mm and 250mm. Perfect for glazing panels that are installed deep in the frame or where there is an obstruction such as a mullion in the way.

PALLET FORKS

Capacities of 350kg to 500kg. The Smartlift fork attachment is easy to fit with no tools required. Very handy for moving small loads.

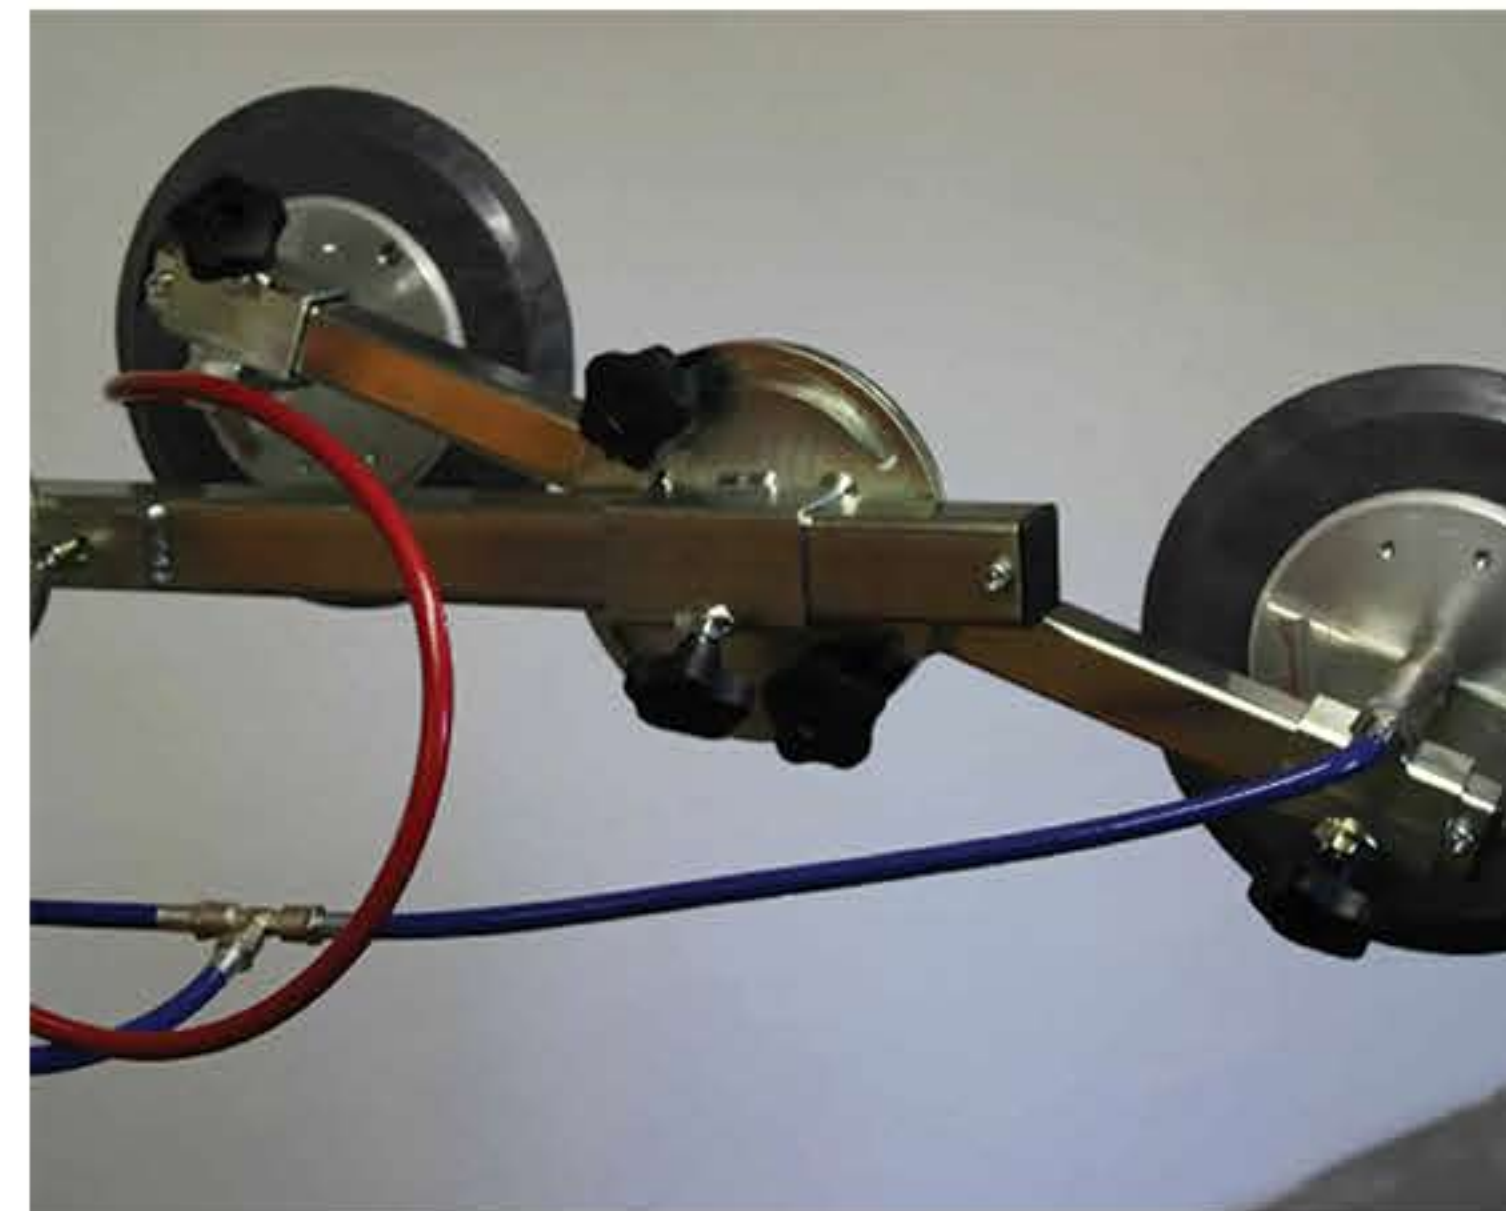

LIFTING HOOK

Available in 400kg and 600kg capacities. Fitting is a very simple operation and only takes about 2 minutes. Now you can use your Smartlift robot for more than just lifting glass!

CURVED GLASS ATTACHMENT

Smartlift curved glass vacuum pads are fully adjustable and suitable for convex and concave contours. 400kg lifting capacity when connected to the SL608 HLE.

FLEXIBEAM

The Smartlift flexibeam attachment is adjustable to suit narrow or odd shaped glass panels. This gives you the edge you need to tackle the most challenging installations.

SMARTLIFT RAMP

Excellent for loading and unloading the Smartlift from a trailer or van. Also can be used on some small stairs or for mounting kerbs in shopping centres.

OKTOPUS VACUUM LIFTERS

VACUUM LIFTING DEVICES FOR CONSTRUCTION SITES

Here at Zone Group, we are one of the largest suppliers of vacuum lifting devices and robots in Australia. Capacities from 200kg to 3000kg and beyond, our aim is to offer our customers the right solution for their projects, wherever they are.

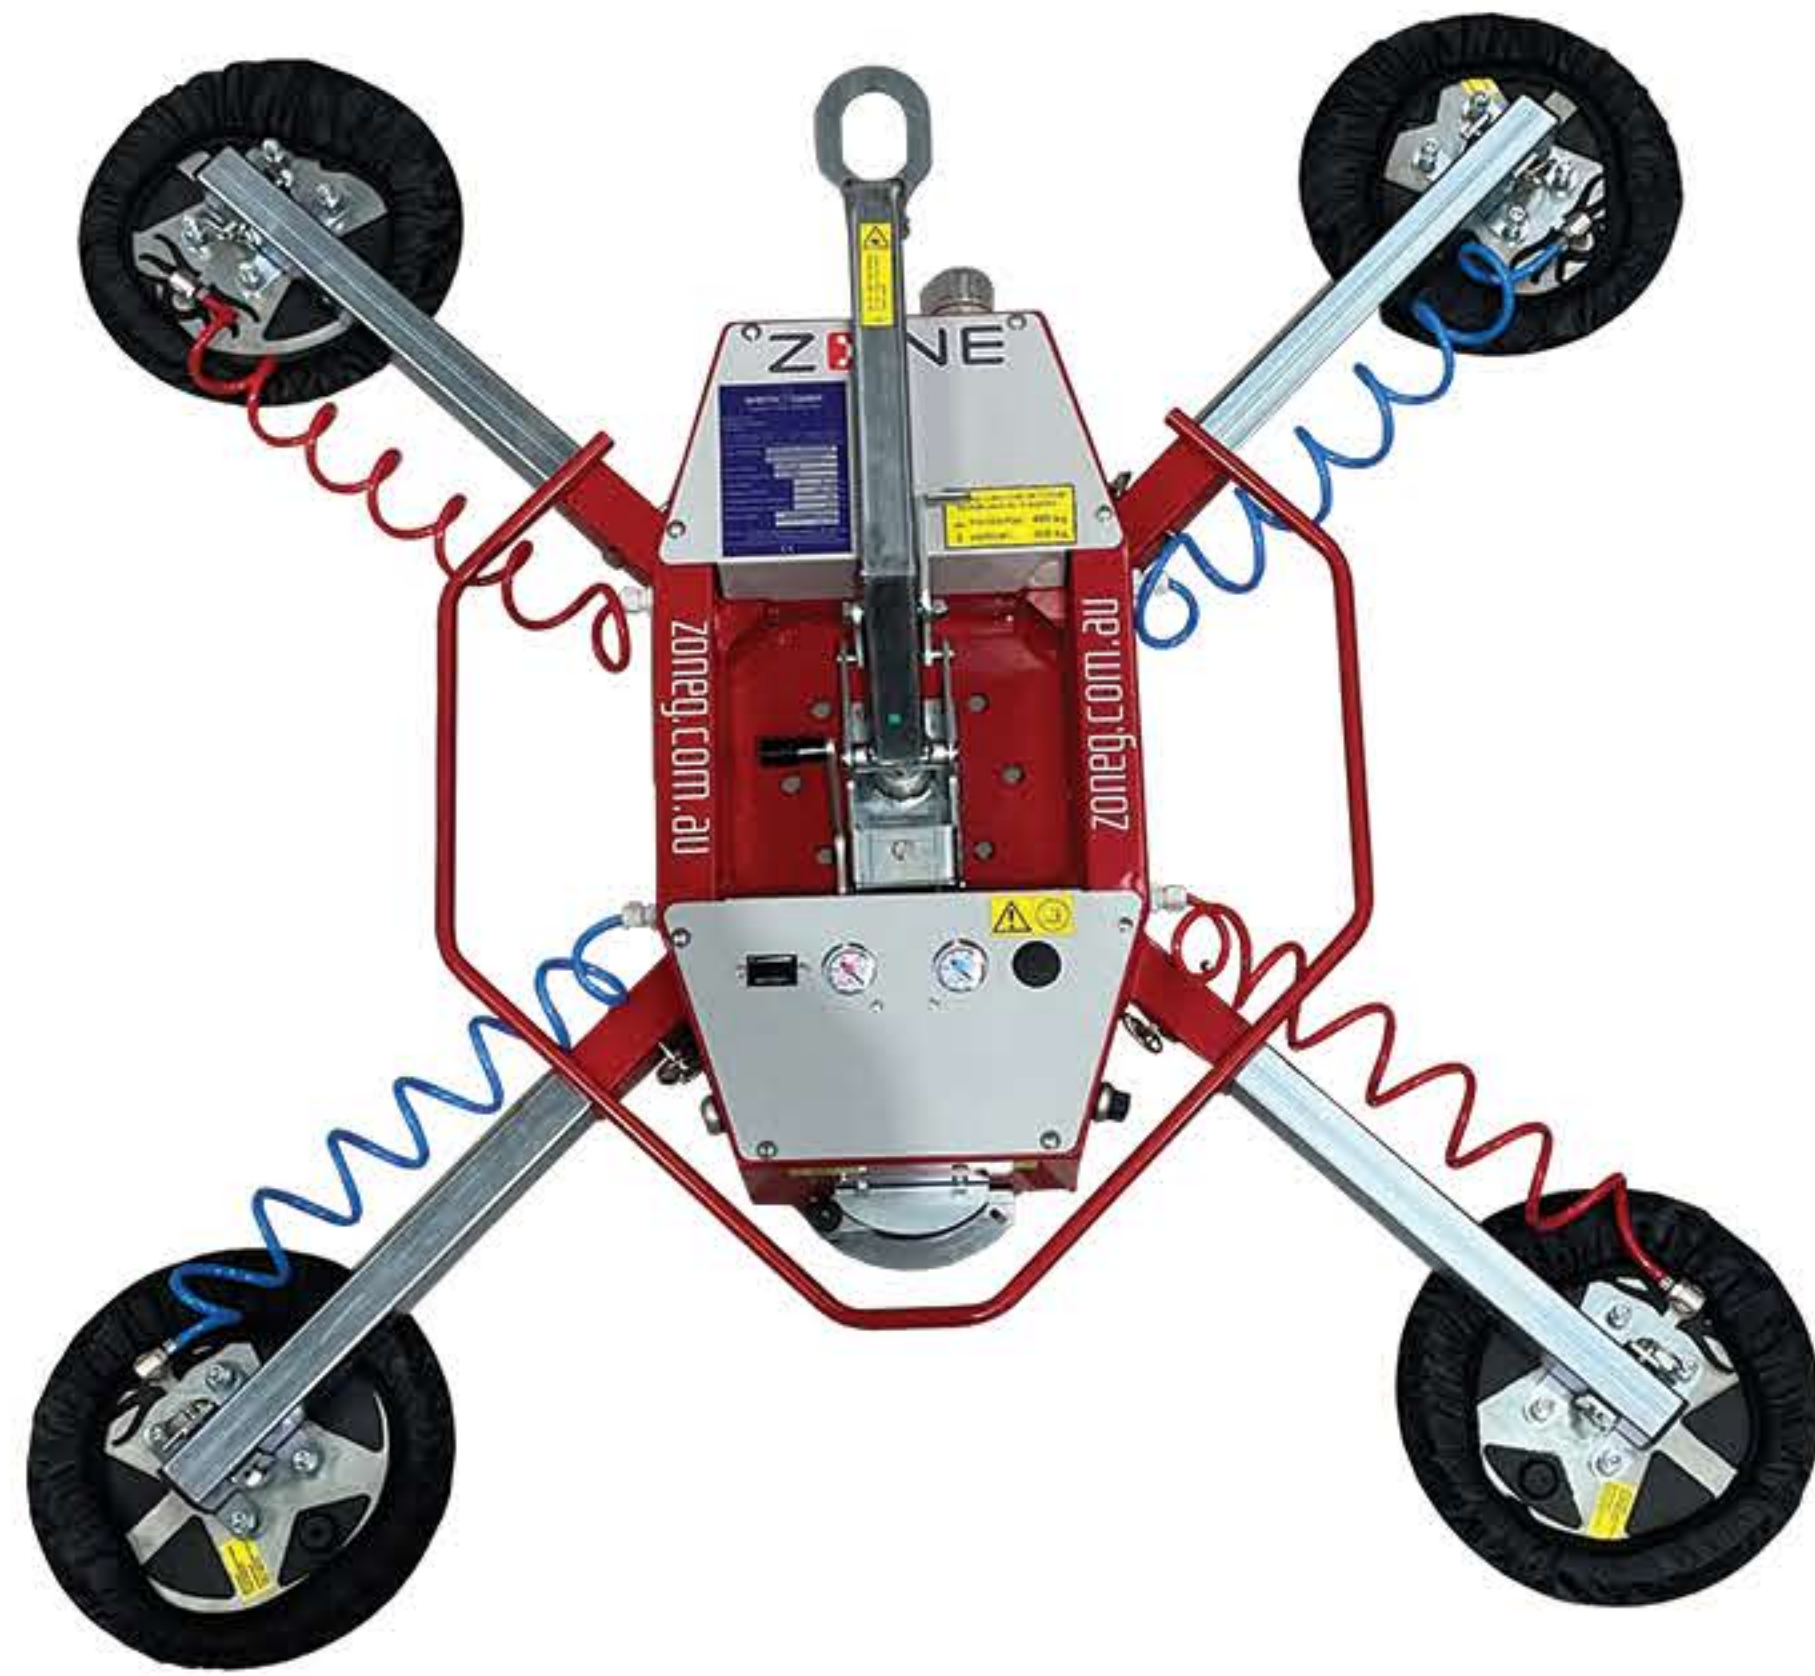

Vacuum lifters to suit glass, steel, aluminium and composite panels. Flat, curved or contoured profiles are not a problem, if the surface is non porous. Our team looks forward to helping you with your specialised lifting applications.

KS-BN F 400

LIFTS UP TO 400KG

Using the tried and tested round and oval suction pads, or the two-chamber rectangular suction pad, you can transport and install almost every standard sandwich element and many corrugated sheets. The suction areas of the elements to be lifted must be air-impermeable, have to have an even and clean surface and must not be covered with protective film.

- Capacity is 400kg
- Suitable for wall and roof cladding panels
- Dual vacuum circuits
- Safety belts
- Handles cladding up to 18 metres in length
- Multiple pad configurations to suit different sheet profile.

KS COMPACT

LIFTS UP TO 400KG

Using the tried-and-tested four-chamber rectangular suction cup, you can transport and assemble almost all commercially available sandwich elements with a smooth to slightly profiled surface in the wall area. The elements to be processed must be airtight on the suction surfaces, have an even and clean surface and must not be covered with a protective film.

- Dual circuit system
- Vacuum safety chamber
- Rechargeable high capacity 24 volt system
- 360° rotation and 90° tilting
- 2 gauges with integrated safety system
- Manual control
- Mass is 100 kg
- Can be attached to forklift or crane

GL-RN 400 / 600 / 800

LIFTS UP TO 320KG

The OKTOPUS® GL RN Curved Glass attachment offers reliable and versatile vacuum lifting for curved glass elements widely used in modern façade installation. Its safety features, ergonomic handling, and installation flexibility make it an ideal tool in architectural glazing projects—especially where working with spherical or cylindrical glass is required.

- 14 × Ø200mm suction pads
- Supports convex/concave glass with radius $\geq 1m$
- Device weight with adapter: ~75kg

Also available for the following models: KN1000, GLM1400 & MGS3000.

ZONE SPIDER CRANES

ZONE GROUP

DESIGNED TO GO JUST ABOUT ANYWHERE

Manufactured to the highest standards and consistently maintained to ensure safe operation. The range of Zone Spider Cranes are suitable for just about any project. Perfect for worksites with congested spaces where you need to lift light or heavy loads into place. Some models have hydraulic luffing jibs for the most challenging of tasks, but make it look so easy.

Need a crane lift indoors and need it done quietly and safely? Well our new range of Lithium powered Spider Cranes are just the solution for you! Whisper quiet operation with no noxious fumes to concern yourself with. Powered by a 48 volt lithium batteries which can also run the crane at full power whilst it charges itself from a standard 10 amp power point.

Hospitals, airports, shopping centres and schools will love these cranes they can't hear or smell. With many current models to choose from, Zone Group are sure to have a Spider Crane suited to your specific requirements. We supply to the construction, mining, logistics and engineering sectors.

They also have lower maintenance costs, a longer useful life (up to 8-10 times) and faster charging times once discharged (up to 3 times) than standard batteries!

PICK & CARRY CRANE

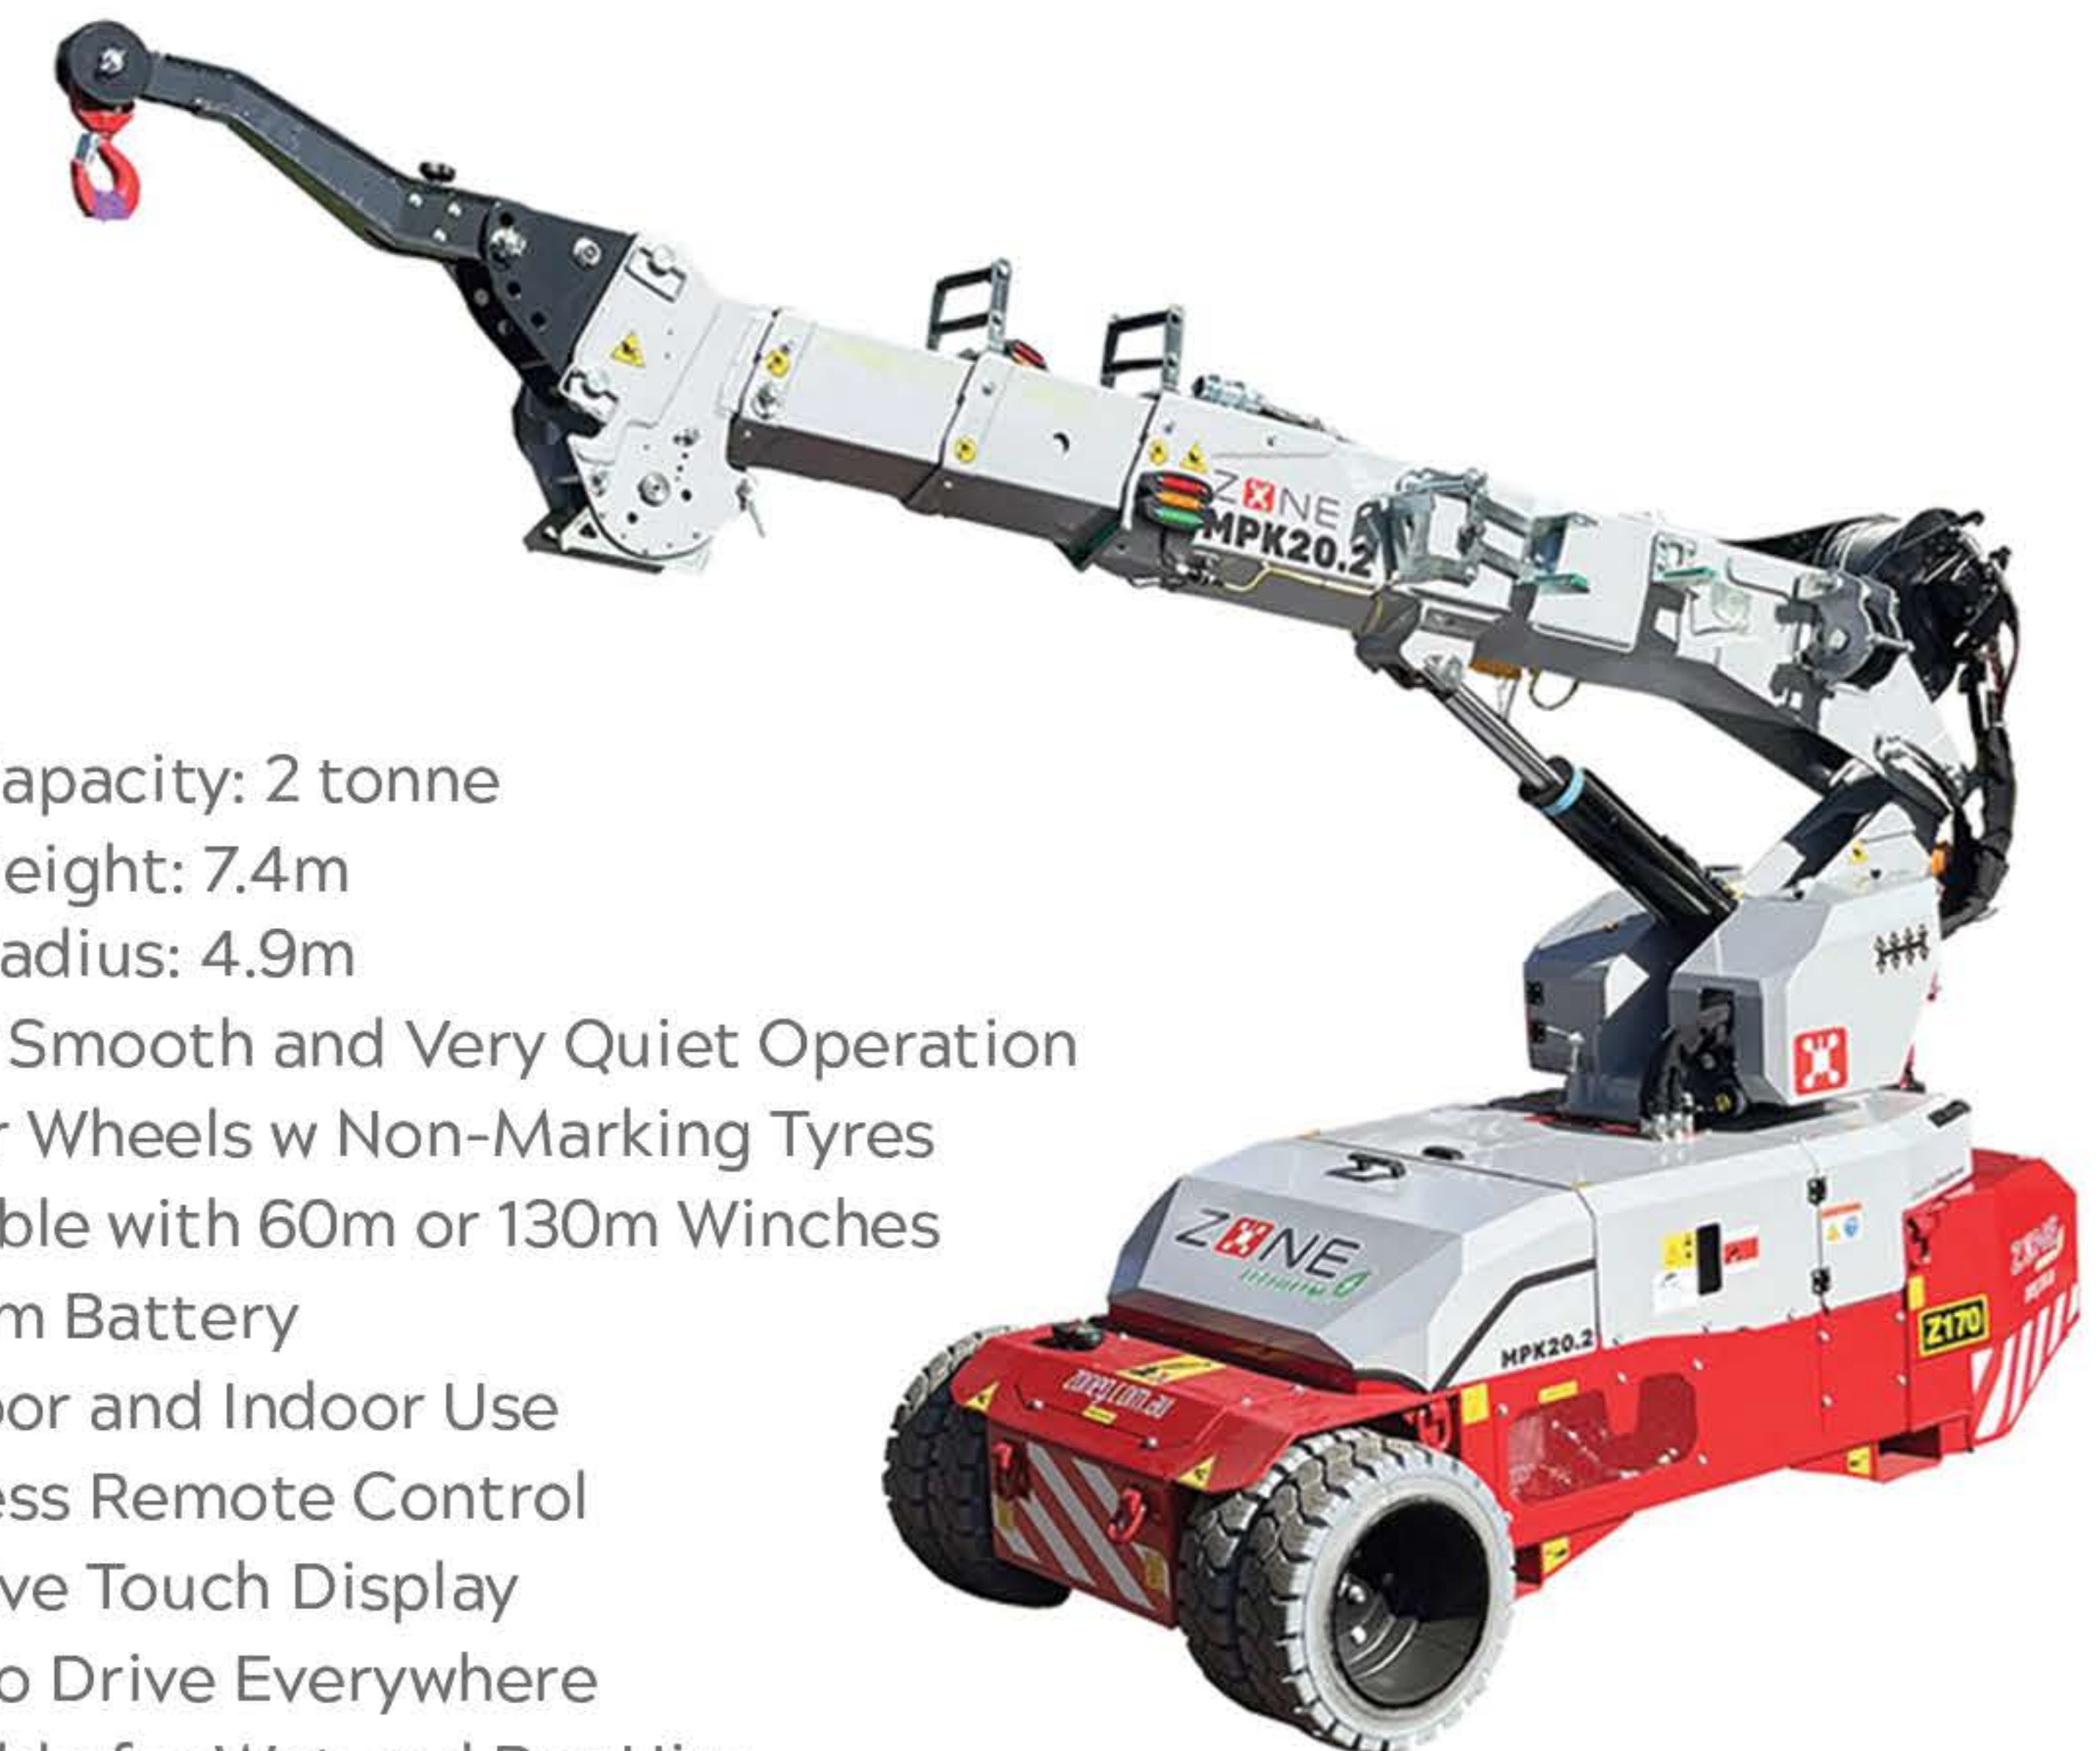

ZONE GROUP

ZONE E20.2

Meet the all-new E20.2, a 2tonne, fully electric 2-in-1 mini picker that combines the power of a pick-and-carry crane with the precision of a glass handling robot in one compact machine. Powered by advanced lithium battery technology, the E20.2 delivers reliable performance for a full working day on a single charge. It can even continue operating while plugged in, making it the perfect solution for emission-free, low-noise lifting in sensitive indoor environments.

It's innovative steer-by-wire system provides exceptional control and effortless manoeuvrability, even in the tightest spaces where traditional lifting equipment simply won't fit. Available with a winch, standard hook or searcher hook, the E20.2 is built to handle a wide range of indoor and outdoor lifting applications with strength and precision.

- Max Capacity: 2 tonne
- Max Height: 7.4m
- Max Radius: 4.9m
- Super Smooth and Very Quiet Operation
- Indoor Wheels w Non-Marking Tyres
- Available with 60m or 130m Winches
- Lithium Battery
- Outdoor and Indoor Use
- Wireless Remote Control
- Intuitive Touch Display
- Easy to Drive Everywhere
- Available for Wet and Dry Hire

FLOOR CRANE MODELS

WIENOLD MRC 751

LIFTS UP TO 720KG

With the Wienold MRC 751, you can lift heavy loads and move them to the desired destination with little effort. The Mini Rotating Crane is newly developed and compact. The MRC is suitable for a variety of possible uses and can be rotated 360° and has four supports that can be adjusted by hand with a crank or with a cordless screwdriver and locked with a spring catch. Adjustable boom extension to suit your lifting needs. Full 360° rotation assists with increased manoeuvrability and positioning in restricted spaces.

Flexible sizing and positioning options. Quick and easy to assemble. Lightweight and compact design. Simple manual operation. Suitable for indoor and outdoor use. Dismantle to fit into a small ute. Can move and carry a range of materials. Equipped with removable counterweights. Oktopus units can be seamlessly attached. Our electric winch makes an excellent add on. Extra outriggers can be included for stability. Wheels can be interchanged for all-terrain tyres.

WIENOLD MFC 750

LIFTS UP TO 900KG

8 fold adjustable boom achieves increased range and helps with those more difficult to reach areas. The MFC can be easily converted to the MFC Ks for an even more compact model. Flexible sizing and positioning options. Quick and easy to assemble.

Lightweight and compact design. Simple manual operation. Suitable for indoor and outdoor use. Dismantle to fit into a small ute. Can move and carry a range of materials. Equipped with removable counterweights. Oktopus units can be seamlessly attached.

Our electric winch makes an excellent add on. Extra outriggers can be included for stability. Wheels can be interchanged for all-terrain tyres

MANITOU TELEHANDLERS

DURABLE, VERSATILE & RELIABLE

Zone Group specialise in Telehandler hire and sales. We stock a range of Manitou Telehandlers that are durable, versatile and reliable. Telehandlers are also known as telescopic handlers, teleporters or boom lifts.

Select from our range of Telehandlers with booms from 6 to 32 metres and capacities from 2 to 35 tonnes. Wet and dry hire options are available from Zone Group.

In conjunction with our expert engineers, we design and construct project specific Manitou attachments to suit telehandlers and other machinery. From a simple general purpose bucket or lifting jib to a high reach drill rig. If you have a concept or idea, we will definitely give it a go. There is always a more efficient and safer way of lifting and shifting, so let us help you.

MANITOU FORKLIFTS

ZONE GROUP

EASY TO USE, EFFICIENT & VERSATILE ALL TERRAIN FORKLIFTS

Zone Group offers several ranges of All Terrain Forklifts for industrial, construction and agricultural trades. Easy to use, efficient and versatile, they allow you to handle your loads with precision and safety.

The Zone 4WD Forklifts are very versatile and can handle rough and soft terrain with ease.

These units are available with hydraulic fork positioning and side shift, to eliminate the need for manual handling.

Visibility from the operator's cab is excellent. The fully enclosed cab complete with Air Conditioning creates a comfortable operating environment.

You can now load/unload and/or lift loads efficiently and quickly outdoors and/or indoors, depending on the model, in optimal conditions of comfort and safety.

ZONE GROUP

MH25-4

LIFTS UP TO 2,500KG

The MH 25 is a versatile forklift truck with unrivalled efficiency, regardless of the ground conditions.

It comes equipped with 4-wheel drive and a generous ground clearance, so uneven terrain won't be a problem. Both compact and powerful, you can store and handle loads of up to 2.5 tonnes even in cluttered environments.

The spacious suspended driver's cab keeps you comfortable to reduce the effects of fatigue over shifts. Access is made easier with both sides opening up and a larger handle grip whilst the relatively low bottom step makes climbing into the driver's seat a breeze.

M30-4

LIFTS UP TO 3,000KG

The M 30-4 is the ideal forklift truck for extreme handling conditions.

Quarries and the mining and timber industries are just some of the areas where this machine excels, providing excellent efficiency.

Sturdy and robust, it comes equipped with 4-wheel drive and is designed for outstanding terrain resistance. Manitou masts provide excellent robustness for off-road conditions, with a lift height of up to 7 m.

And for even better performance, there is a wide range of tyres available for maximum versatility.

M50-4

LIFTS UP TO 5,000KG

The M 50-4 forklift truck is designed for activities which need to be performed on rough terrain or where obstacles are present.

With 4-wheel drive, 36 cm ground clearance and a turning radius of 3.4 m, this machine offers excellent manoeuvrability regardless of the circumstances.

And for even better adaptation to the various types terrain faced, a wide range of tyres is available for optimal performance.

The driver's cab is accessible from both sides and offers a spacious working area with ergonomic controls. And with full 360° surround view, ground team safety is enhanced as well.

MANITOU ELECTRIC FORKLIFT

ZONE GROUP

OPTIMISE YOUR HANDLING & STORAGE WITH THE MANITOU ME 425C ELECTRIC FORKLIFT TRUCK

LIFTS UP TO 2,500KG

Fully electric
Weight 4,300kgs
Length 3,492mm x W 1265mm x H 2155mm
Suitable for indoor and outdoor use
Noise free operation
Available wet or dry hire

Optimise your handling and storage operations with the Manitou ME 425C electric forklift truck. Electric, this mast model offers a maximum load capacity of 2,500 kg capable of transporting your goods and various materials in complete safety. Its compact design is ideal for efficient handling under all conditions, especially in the tightest work areas.

Our Manitou ME 425C electric forklift truck is a 3 stage container mast. Its 48V battery makes the ME 425C a compact and economical forklift truck, perfectly suited for light applications that do not require an 80V battery.
